

A free business class for your graduating students

Your program teaches the trade. We teach the 90 minutes nobody covers: how a graduate turns that trade into paid work in their first month.

What we provide, at no cost to the school

- 1 A free 90-minute live class (Zoom or in person) built for your trade
- 2 Printable student handouts and checklists for your career services shelf
- 3 Templates students keep: estimates, invoices, pricing worksheet, follow-up scripts
- 4 A simple placement alternative to report: students who start earning on their own

How to set it up

- 1 Pick a date 2–4 weeks before a cohort graduates
- 2 Give us a 90-minute slot and a room or a Zoom link
- 3 We handle the content, the handouts and the follow-up
